NEBULA *GLOW* 10"

Capacitive Touch

Optional POE

With LED Lights

Overview

Nebula Glow - our 10-inch all-in-one touch screen device is perfect for meeting rooms, casinos, and any other space that requires a device with a visually striking design. With its high definition LCD panel and full viewing angle, the Nebula Glow delivers stunning visuals that are sure to capture your attention. The device also features a programmable LED light rim that can be customized to suit your needs, making it both functional and aesthetically pleasing. It also comes with POE (Power over Ethernet) enabled, allowing for easy installation and management. With the STAROS kiosk lockdown application and Star Control remote management system, the Nebula Glow Is able to be remotely controlled. Finally, the capacitive touch screen technology ensures that the device is responsive and easy to use.

Available in 10", widescreen with selectable high-performance CPUs and IPS capacitive touchscreens
----
Choice of Wi-Fi / Ethernet

Optimize deployments with cloud-based configuration, monitoring and scheduling
----
Modern design with flexible mounting in portrait, landscape ad table-top orientation
